

**DOCKET NO.:** CELG-0119  
**Application No.:** 09/283,645  
**Notice of Allowance Dated:** June 28, 2004

**PATENT**

### **REMARKS**

The Notice of Allowance lists that claims 2-15 are allowed. Claim 14, however, was cancelled in an amendment filed June 5, 2000. Although inadvertently listed on Applicants' amendment filed March 24, 2004, claim 9 was also cancelled in a preliminary amendment filed April 1, 1999. Applicants respectfully request that the status of these two claims be corrected.

Applicants note the Examiner's characterization of the Jursic reference but do not necessarily concur. The Jursic reference allegedly shows NMR spectra that are generated using an analytical technique that did not involve any physical isolation of the analyzed compounds.

Date: July 22, 2004
